FOCUS ON STANDARD AND CUSTOMIZE CONNECTORS
ONE-STEP SERVICE
FOR R&D, MANUFACTURING AND SALES

专注标准件及定制连接器
研发·生产·销售一站式服务

联益康电子有限公司
LEYCONN ELECTRONICS CO.,LTD

For more detailed product information, please contact us to send the "Connection Scheme Selection Manual", or log on www.leyconn.com to download.

欲了解更详细的产品信息，请联系我们寄送“连接方案选型手册”，或登录www.leyconn.com下载。

深圳市联益康电子有限公司，国家级高新技术企业，专业从事电子连接器、连接线及五金车床件之研发、生产和销售。产品广泛应用于汽车、工控、通讯、电脑、仪器仪表及电子消费品等领域。涉及汽车、工业及消费电子类三个级别，汽车连接器分别应于 Audi Volkswagen 等车型，其中消费电子类代表客户为 Logitech，工业级连接器代表客户为“世界500强企业” Honeywell ABB Hitachi Inspire the Next ALSTOM Amphenol 等。

联益康公司拥有来自美国、瑞士、日本等具有世界一流水平之先进生产设备和精密的检测仪器，工厂设有注塑成型、五金冲压、自动车床、装配等车间；致力于开发和生产高精度、高可靠度的连接器。联益康连接器产品被客户广泛的替代 TYCO、MOLEX、SAMTEC、PRECI-DIP及MILL-MAX等世界知名品牌连接器。

凭借美国、瑞士和日本高品质材料及先进设备的支持，及强大的研发团队，每位成员均拥有多年的丰富经验，以及熟练的专业技术，我们能够保证向客户提供优良品质、具有竞争性的价格及迅速交付的产品。我们能针对市场需求做出快速反应，不断推出新产品，同时能为客户提供量身定做的连接解决方案。随着全球电子产品向高、精、尖方向的发展，我们遵照ISO9000: 2000的质量管理体系标准制订了一整套文件化的质量管理规范。公司自2004年底导入欧盟的RoHS指令以来，定期将各批次的原材料交由第三方权威机构SGS检测认证中心进行检测，以确保交付给客户的产品完全符合RoHS指令。同时，我们的连接器产品也获得UL、CE、SGS等相关检测认证。

联益康公司拥有完善的客户服务体系，客户服务中心拥有一批优秀的专业技术工程师，为用户提供完善及时的售前服务（如产品设计、产品选型）、售中服务及售后服务等。我们希望，联益康电子成为技术领域内的先锋，也成为市场服务的先锋。

我们希望联益康成为客户的合作伙伴和第一选择。通过共同的努力提升客户的产品价值是我们的首要任务，也是我们的行为准则。为此，我们不断加强自己的实力，力求全方位满足客户需求，与客户一起双赢发展。

ABOUT LEYCONN

走进联益康

LEYCONN Electronic Co.,Ltd is specialized in R&D, manufacturing and marketing almost all kinds of electronic components, which are widely used in industrial control, communication, computer, equipment, electronic consumptions etc. Our products are mostly involved in three kinds of fields: Automotive connectors, Industry connectors and Electronic Consumer Connectors. The representative of Electronic Consumer Connector is Logitech. The most representative customers of Automotive connector and industry connector are Audi Volkswagen Honeywell ABB Hitachi Inspire the Next ALSTOM Amphenol Group Cooperation, which are world 500 companies.

Our company possesses a series of advanced world-class processing and testing equipments from Europe, United States, Japan, etc. We're specialized in developing and producing high-precise connectors with different pitches. Leyconn products are widely replaced many famous world brands like TYCO、MOLEX、SAMTEC、PRECI-DIP and MILL-MAX by customers.

With the support of high quality material and advanced equipments from Switzerland and United States, we can certainly provide high quality products to our customers with competitive price and desired timing also. We are able to respond quickly to dynamic market and constantly introduce new products. At the same time, we are able to provide totally customized connectors too. With the trend of advance, precision and specialization of electronic products in the world, we've worked out a full documentation of GMP(Good Manufacturing practice) according to the quality management system ISO9000: 2000. Since we led in ROHS by the end of 2004, we sent raw material to SGS testing center to test regularly to assure the products are totally complied with ROHS instruction. At the same time, our products gained other related certifications such as CE, UL, SGS and so on.

Leyconn Company owns perfect customer service system, with a team of excellent technology engineers who can provide perfect before-sales(product design, product choosing and so on), in-sales and after-sales-service. We hope that LEYCONN Electronics will be pioneer of technology as well as of marketing.

We sincerely hope Leyconn will be customers' first choice and cooperator in future. Promoting customers' product value by our mutual efforts is our first mission as well as our rule. Therefore, we will keep consolidating our strength to comprehensively satisfy our customers and to develop our business in double-win situation with our customers.

R&D ABILITY

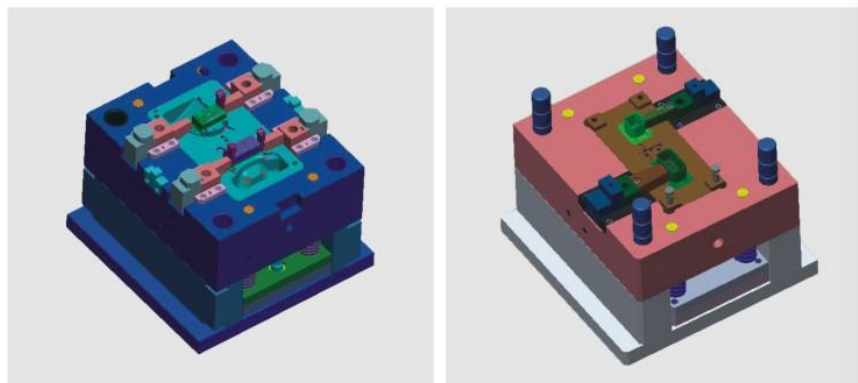

研发能力

Leyconn has a mature R&D team which has more than 10 senior experienced engineers devote themselves into connector structure design, insulator mould design, stamping mould design and processes, Leyconn can independently develop a variety of connectors, Leyconn is capable to provide a "One-Step service" service to clients, including connector design → Insulator / medal mould design → assembling fixtures making → production for connectors → inspection etc.

In the last ten years, Leyconn have developed over 100 types and specification connectors for clients.

联益康研发团队拥有十多名资深研发工程师，在连接器结构设计，塑胶模具设计，冲压模具设计及生产工艺设计等环节发挥各自的特长；联益康不但能独立开发各种型号的连接器的，更可以从连接器设计 → 塑胶/五金模具制作 → 组装治具制作 → 连接生产检测等全过程为客户提供完整的服务。

近十年来，联益康为客户开发了100多个规格的连接器的。

PRODUCTION ABILITY

生产能力

Leyconn production department sets up stamping workshop, lathe workshop, injection workshop and assembling workshop, which makes Leyconn has ability to finish the whole process of connector production, it can independently complete the production, assembling and inspection of every part of the connector; A completed internal supply chain can not only reduce the delivery speed, but also improve the production and makes it much efficient to provide competitive connectors to our clients.

联益康生产部门设有冲压车间，车床车间，注塑车间及装配车间，能独立完成从连接器零件生产到连接器组装与检测全过程，完整的产业链配合不但可以缩短交付速度，更能以规模效应提升生产效率，为客户提供有竞争力连接器产品。

INJECTION MOLDING & HARDWARE STAMPING

注塑成型 & 五金冲压

LATHE WORK

车削加工

Leyconn has lathe workshop which equipped with CNC lathe, automatic lathe and other compound processing equipment, we can control the cost by improve the automation degree, we equipped automatic loading material system to each of the lathe, which means we only need several operators in the whole lathe workshop, high degree automation and experienced operators makes production more effectively and make sure the quality at the same time.

联益康车床车间配有数控车床，自动车床及各种复合加工设备，每一台车床均配备有自动上料系统，整个车间只需配置少量操作人员，从而有效的控制生产成本；

技术人员根据零件的不同结构及批量选用不同的加工设备，不但可以保证品质，更可以大幅的提升加工效率。

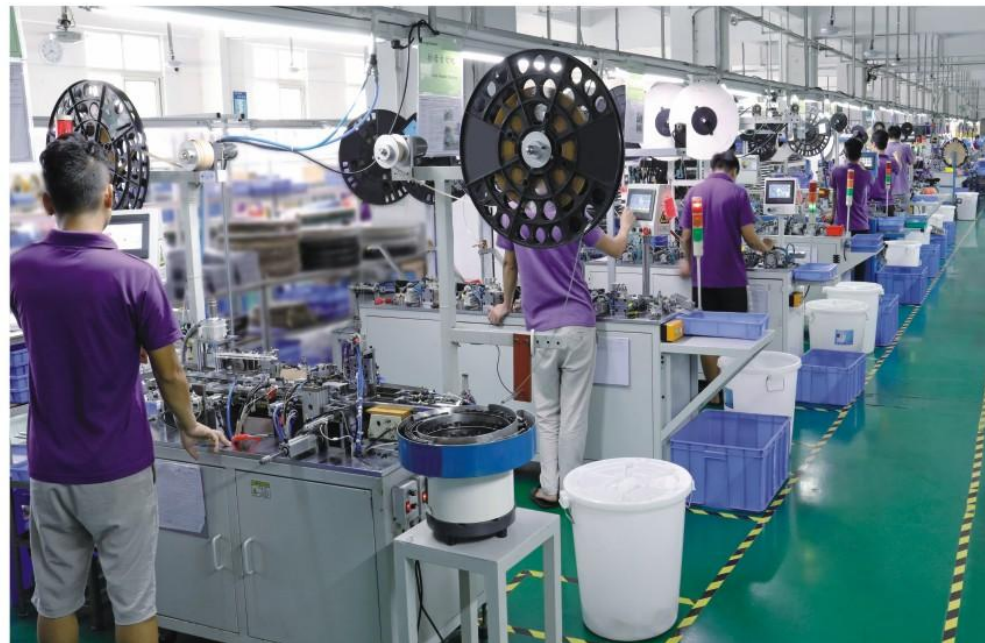

AUTOMATED ASSEMBLY

自动化组装

Leyconn Assembly workshops are divided into automatic assembly lines and semi-automatic lines with manual operation. Which not only meet production of large quantities of orders, as well as the production of small batch orders, ensure to meet customers' delivery schedule.

联益康装配车间分为自动化组装生产线及搭配人工作业的半自动化生产线，既满足大批量订单的高效生产与交付，同时也兼顾小批量订单之生产。

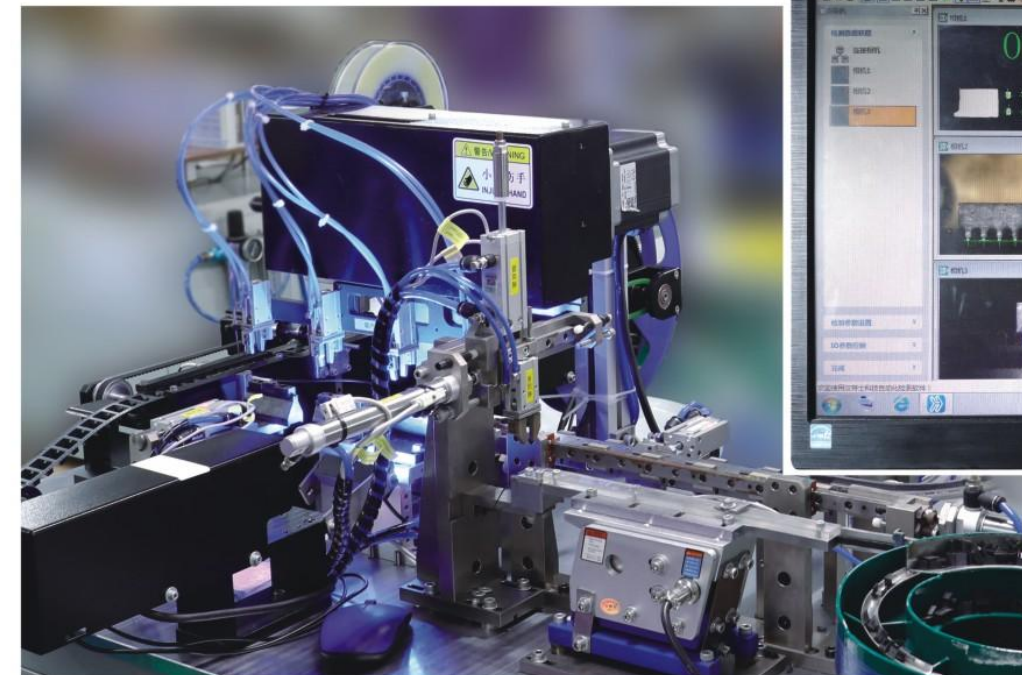

CCD VISUAL INSPECTION

CCD视觉检测

The assembly workshop is equipped with CCD visual inspection equipment and electrical testing equipment. Only after 100% inspection, the passed products could be proceeded to packing process.

装配车间配有CCD视觉检测设备及连接器电气测试设备，连接器产品100%检验后才能进入包装交付过程，更有效的保证产品品质。

PRODUCTION INSPECTION AND CERTIFICATION

产品检测与认证

All Leyconn connectors are designed, manufactured and tested in compliance with the standards of international safety testing institutions. According to the characteristics of connectors, there are electrical Lab, mechanical performance Lab and chemical properties Lab. Testing of connectors and raw materials can be completed in inside Lab; Moreover, the connector products have been tested and certified by UL, VDE, CE etc. from the third parties.

联益康全系列连接器从设计，制造到检验过程均以国际安全测试机构的要求为标准，根据连接器的特性要求设有电气实验室，机械性能实验室，化学特性实验室；公司内部便可以完成连接器及材料的检测工作；且连接器产品分别获得UL，VDE 及 CE等第三方机构的检测与认证。

ISO-9001 certified in May 2011
Product CE certified in June 2011
ISO-14000 certified in January 2013
National level Hi-Tech Enterprise verified in September 2014
IATF-16949 certified in October 2015
Level III confidentiality corporation qualified in March 2016
Product UL certified in December 2018
Accumulated 23 product design patents obtained in December 2019
VDE certified in June 2020

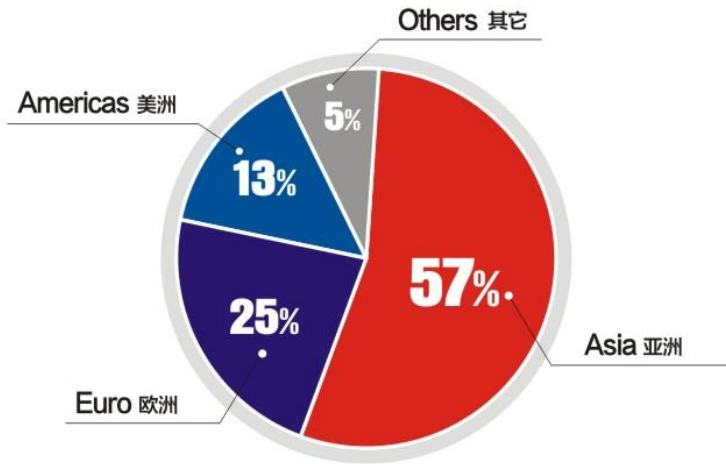

APPLICATION MARKET SHARE & GLOBAL MARKET SHARE

CUSTOMER SERVICE

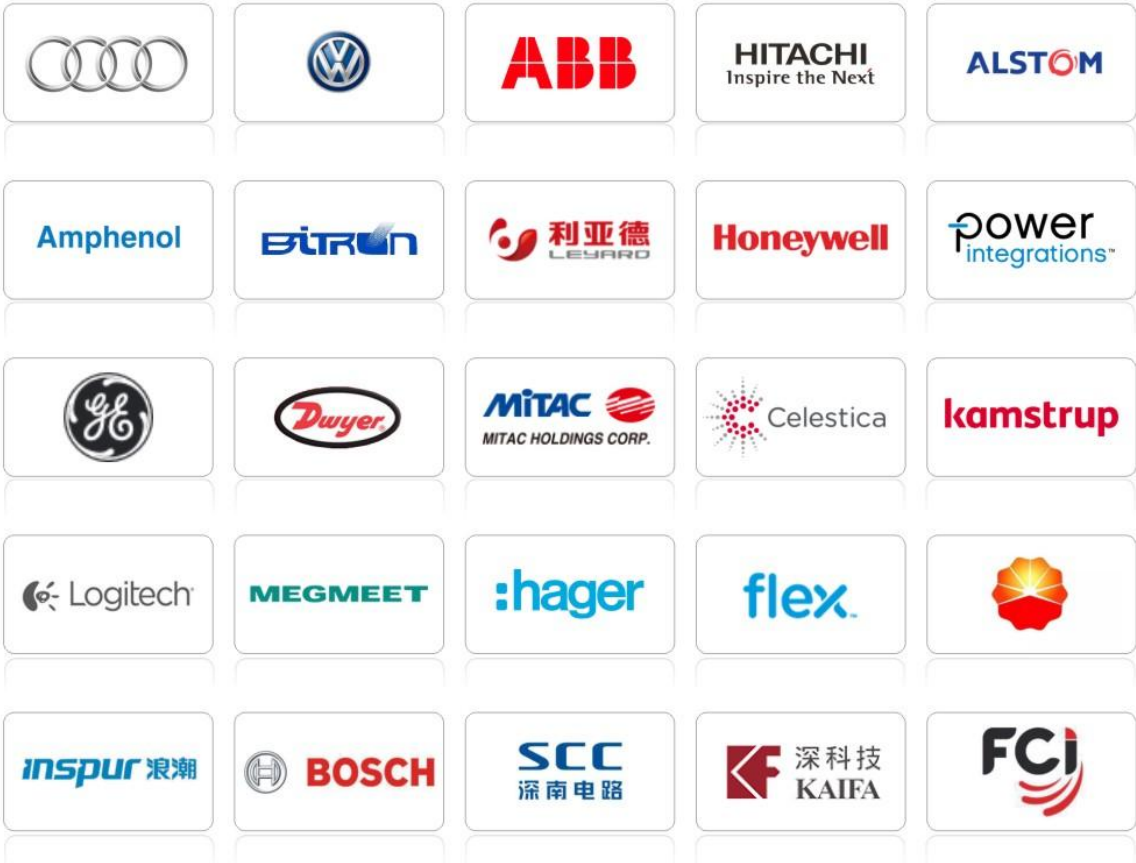

客户服务

Leyconn has perfect customer-service system, excellent professional engineers. Customer center could provide the products model selection timely, samples approve, mass production delivery service. Sales communicate with customers regularly, and know their need, feedback their requirements to R&D department, to ensure products comply with customers' requirements.

联益康公司拥有完善的客户服务体系，优秀的销售工程师为客户提供完善及时的产品选型，样品承认，批量交付服务。销售人员定期与客户保持接触，了解客户需求并反馈到研发部门，以确保产品符合客户的要求。
